The percentages above represent each producer's share of the producer royalty pool established under the applicable production agreement. They do not, by themselves, represent a percentage of the entire master recording revenue or ownership of the master recording.

3. PRODUCER ROYALTIES AND REVENUE

3.1. The artist, record label or other authorised party responsible for exploitation of the recording shall pay producer royalties in accordance with the applicable signed production agreement.

3.2. The producer royalty rate, calculation basis and payment obligations shall be governed by the applicable production agreement. This Split Sheet allocates the producer royalty pool among the producers identified in **Clause 2**.

3.3. Unless expressly agreed otherwise in writing, producer royalty splits shall be calculated according to the percentages in **Clause 2** after the applicable producer royalty pool has been determined.

3.4. Where a producer royalty is calculated from artist royalties actually received, the calculation shall follow the definition of artist royalties and any permitted deductions specified in the applicable production agreement.

3.5. No producer royalty shall be reduced by unapproved expenses, advances or recoupment deductions except as expressly authorised by a signed written agreement.

3.6. Royalties shall be accounted for and paid according to the reporting and payment terms of the applicable production agreement.

4. MASTER RECORDING OWNERSHIP

4.1. This Agreement does not automatically transfer ownership of the master recording to any producer.

4.2. Master recording ownership shall be determined by the applicable signed master ownership, production, recording or distribution agreement.

4.3. Where the artist, record label or another designated party owns the master recording, a producer shall not acquire master ownership merely by producing, arranging, recording, mixing or mastering the track.

4.4. Any agreed master ownership interest shall be expressly documented in a separate written agreement or an ownership schedule signed by the relevant parties.

5. SONGWRITING AND PUBLISHING RIGHTS

5.1. This Agreement concerns producer royalties and production contributions. It does not independently establish songwriting or publishing ownership.

5.2. Where a producer contributes original lyrics, melody or other protectable musical composition, the parties shall record the relevant songwriting and publishing splits in a separate Songwriter Split Sheet.

5.3. Producer royalty percentages shall not automatically be treated as songwriting or publishing percentages.

6. PRODUCTION CREDITS

6.1. Each producer shall receive appropriate production credit consistent with their contribution and the applicable release metadata.

6.2. The artist, label, distributor or other responsible release party shall use reasonable efforts to submit accurate producer credits to the relevant digital service providers and distribution platforms.

6.3. The parties shall cooperate in correcting material errors in production credits and metadata when reasonably practicable.

7. REPRESENTATIONS AND WARRANTIES

Each party represents and warrants that:

a. They have accurately disclosed their contribution to the production.

b. They have the legal capacity and authority to enter into this Agreement.

c. To the best of their knowledge, their original contributions do not unlawfully infringe third-party rights.

d. They have disclosed any samples, third-party beats, loops or other materials requiring clearance, to the extent known to them.

e. They have not knowingly agreed to an inconsistent allocation of the same producer royalty interest.

8. SAMPLES AND THIRD-PARTY MATERIAL

8.1. Each party shall disclose any third-party material incorporated into the recording that may require permission or clearance.

8.2. The party responsible for obtaining clearance and paying associated costs shall be determined by the applicable production agreement or another written agreement between the relevant parties.

8.3. No party shall knowingly represent that third-party material has been cleared when the necessary clearance has not been obtained.

9. ACCOUNTING AND PAYMENT

9.1. The party responsible for administering producer royalties shall maintain reasonably accurate records of relevant receipts, calculations, deductions and payments.

9.2. Producer royalty statements and payments shall be provided according to the applicable production agreement.

9.3. Any applicable audit rights, reporting thresholds, tax deductions, payment-processing charges and withholding obligations shall be governed by the relevant written agreement and applicable law.

10. AMENDMENTS AND DISPUTE RESOLUTION

10.1. No amendment to the agreed producer royalty splits shall be effective unless documented in writing and signed or otherwise expressly approved in a verifiable written form by all affected parties.

10.2. The parties shall first attempt to resolve any dispute through good-faith negotiations.

10.3. If negotiations fail, the parties may mutually agree to mediation or another lawful dispute-resolution procedure.

11. GOVERNING LAW

This Agreement shall be governed by the laws of the Federal Republic of Nigeria, subject to applicable mandatory laws.

12. ENTIRE AGREEMENT

This Agreement records the agreed allocation of the producer royalty pool and the production credits of the parties identified herein. It shall be read together with any applicable production, master ownership, distribution or songwriter agreement. It does not replace those agreements or independently establish a royalty rate where one has not been agreed elsewhere in writing.
